Scott - Just learned of your dad's passing. I will always have fond memories of his patience and generosity. One standout memory: letting me take his Cadillac for a spin around the block, unchaperoned, shortly after getting my drivers license! Not to mention the many trips to Tiger Stadium on multiple Bat Days and Ball Days! He was also influential in my decision to pursue engineering. We missed him when he left GP! Take care, and best regards, Kevin and Sophie
