“ *To My Beautiful Baby Boy,*

*Having 38 years with you was way to short. I think of you every minute of every day. You were my sunshine. Everyone that knew you loved you. I will never understand why you were taken from me so early. My tears flow all day knowing I will never feel your hugs again. Your smile lite up a room. I was so very blessed to have you as my son. You were the love of my life. It's amazing that after someone passes away the things that you remember. I remembered your first kick in my womb, I remember the night you were born, I remember when they first brought you to me in the hospital and I took off all your clothes to make sure you had everything you supposed to have. I remember bringing you home from the hospital. The first time you giggled out loud made me cry. You were my only son. The light of my life. Knowing you are no longer with us is almost to hard to bear. Know that I will think of you every minute of every day.*

*You are my one and only, and my only one.*

*Rest In Peace my beautiful Angel*

*All my love,*

*Mom*
