“ *My heart is broken. Kayla you left this world way to early use to laugh so hard. She worked with me off and on At Chester's Gators and Taters.*

And she would travel cross country to be with us. We would laugh at the craziest things she did or said Anytime I needed her she was always there. She loved everyone. I tryed to help her become better when she was around me. She sure deserve so much better. She will always be loved and missed.
