“ I’m just now learning of Michael’s passing. I have known him since he was 15 years old, meeting him through my younger brother, Gene Perry. I have been looking for Michael for the past few years, as the only phone number I had kept going to voicemail saying his mailbox was not set up. It breaks my heart to find him here, as I write this through tears of sadness and despair. I loved Michael. He was an intelligent and insightful man. We never had a harsh word and he was so good to me. I have many many fond memories. The long conversations into the wee hours of the morning. Wonderful dinners and lunches and celebrations during the holidays. I cannot begin to express how much I will miss him. Goodbye, my dear sweet beautiful friend. You made a huge impression on my life and I will never forget you. ~ Audrey

“ Michael and his family where great friends in my early teen years. We learn to drive in their yard long circular driveway. All of those kids would bring gasoline in tin cans to help gas the car. I think I remember it was a Packard. All the neighborhood kids could fit in the back seat.
Rest In Peace
